SERVICE LOANER POLICIES

The following details the official technology Service Loaner policy of SITECH Northland, effective September 9, 2016.

1. Under Warranty/Extended Service Contract

Customers will be charged only if they fail to return the replacement component within four days of receiving their repaired component.

2. No Warranty/Extended Service Contract

Rental period will begin the day after the equipment is shipped from a SITECH Northland facility. Rental period will end on the day the component is returned to a SITECH Northland facility.

Please note: If a customer damages Service Loaner equipment, the customer is responsible for all repairs, to be completed by Ziegler, or a replacement of the component if damaged in their possession. SITECH Northland does not guarantee the availability of Service Loaner products. When a loaner component is requested, it is the responsibility of the customer to inform SITECH Northland of the current firmware version of other system components to ensure compatibility and function.

To schedule a Service Loaner or for more information, please call 877.477.7714.
